

Westford's Stormwater Master Plan

Paul Starratt, P.E., Town Engineer
Chip Barrett, Highway Superintendent
Town Meeting – March 23, 2013

The Goal...
Protect our Natural
Resources
Through Proactive
Stormwater Management

Some photographs pictured taken by the Westford Conservation Trust

**...Many communities wait
until it is too late.**

Notice

An algae bloom has made this area potentially unsafe for water contact. Avoid direct contact with visible surface scum.

**Make the
Connection!**

**Storm Drains
empty into Waterways!**

Westford's Current Stormwater Obligations

A detailed map of Westford, Massachusetts, illustrating the town's stormwater infrastructure. The map features a network of roads, including Lawson Rd, Lake Shore Dr, Gasset Rd, and others. A prominent blue rectangular box is overlaid on the map, containing the text '5,160 Drainage Structures' and '52 Miles of Drain Pipe'. The map also shows various landmarks such as Nabnasset Pond and the Nabnasset Post Office. The infrastructure is represented by green lines and symbols along the roads, indicating the locations of drainage structures and pipes.
